MODEL A FORD BRAKES TECH SESSION:

Ever hear someone say, “Mechanical brakes just don't work well”? On **September 13th at 1pm** **Steve Grant** will do a tech session on how to properly adjust the Model A Ford mechanical brakes for better braking results. The tech session will be at the home of **Fred & Cricket Shelton** located at 146 Settlers Court Shepherdsville Kentucky 40165.

HOPE TO SEE YOU THERE!

REPORT ON LUNCH AT WALLACE STATION:

We met at the church parking lot next to Eastwood fire station on Taylorsville Road. We started off with (3) Model A Fords and all went well until we made a pit stop in Lawrenceburg. There someone noticed that **Robin's** Speedster had a flat tire! At this point the tube had spun pulling the valve stem inside the rim, not allowing him to fill it with air. So, we left **Robin** and **Holly** there to wait for AAA... which ended up being a 2 hour wait.

At Wallace Station, we met up with the Central Kentucky Model A Club who showed up in force with (8) Model A's and about (18) people. We had (3) Model A's and (13) people! **NICE TURN OUT FOR SURE!**

When we left, I noticed that my Fordor had a flat!!! Two flats on a one-day tour, what are the odds! After several guys pitched in, we had it changed and headed home making only one stop at Dairy Queen! It was a Good day shared with Great Friends!

Thank you, **Robin and Holly**, for getting this tour organized for our club! We hate that you could not participate the whole day for sure!

**Robin & Holly Cooper happy before their flat.....
Emeric all smiles before his flat.....**

**AND the Fininzio's happy they didn't have a
flat!!!**

**A Moth stuck on my radiator following the tour
was looking a little flat too!**
